Cadamin™ Varna

Marine Ornamental Fish Feed

- 'Varna' is a scientifically evaluated, slow sinking marine ornamental fish feed.
- Constituents: 38% protein, 9% fat, 39% carbohydrates, 7% ash (minerals) and less than 2% fiber. Contents are marine protein, soy protein, wheat flour, oil vitamins, minerals, colour imparting nutrients like carotenoids from natural sources, immune promoters, probiotics and antioxidants.
- Availability in particle size: 0.25mm, 0.75 mm and 1 mm.
- Recommended usage: Feed 2-3 % of the fish body weight once in a day.

For further information please contact: The Director,
Central Marine Fisheries Research Institute

Cadamin™ Green Algal extract

Natural in every sense

Cadamin™ GAE

- A 100% vegetarian nutraceutical from nature for joint pain and arthritis
- GAE is a natural alternative to synthetic nonsteroidal anti-inflammatory drugs (NSAIDs) without any harmful side effects
- A highly cost-effective and indigenous product

(Indian Council of Agricultural Research, New Delhi)

PREFACE

Marine fishery resources are renewable and limited, therefore management of the harvest of marine fishery resources is necessary for sustained production from the sea. Towards this, it is very much essential to have reliable and updated knowledgebase on status of marine fishery resources, fishing effort expended, number of fishing villages, number of landing centres, fisherfolk population, their educational status, occupational status, infrastructure facilities existing in fishing villages, fishing crafts, fishing gears etc. For generating such information the Central Marine Fisheries Research Institute (CMFRI), Cochin has been periodically conducting frame surveys. The first marine fisheries census was conducted by CMFRI in 1980 with the support of Ministry of Agriculture. Second marine fisheries census on all India basis was conducted during 2005. Dynamic changes have taken place in the fishery and there were many management interventions introduced by the state and central governments from time to time. Changes have also taken place in the crafts and gear, fisherfolk population structure, availability of resources and their spread, infrastructure facilities, educational status etc.

In view of the dynamic nature of the marine fisheries sector, the policies and interventions need to be reviewed periodically. Reliable updated real time data on different aspects of marine fisheries is very much essential for developing suitable policies and interventions. The Department of Animal Husbandry Dairying and Fisheries (DAHDF), Ministry of Agriculture, Government of India during the 11th five year plan has taken up a central sector scheme on “Strengthening of database and Geographical Information System for fisheries sector” with Census on Marine Fisheries as one of the components which was assigned to CMFRI for the second time, considering the expertise and experience in conducting the massive census on all India basis.

The list of marine fishing villages for the different maritime states and union territories formed the frame for the census, which was updated with the most recent information received from the respective state

fisheries departments. This information was validated by conducting a pre-census survey. In addition to the task of selection of enumerators for the conduct of census operation, information on number of households in each village was also collected during the pre-census survey. The necessary schedules for collection of information from marine fishermen households were developed by conducting a series of workshops at CMFRI headquarters, regional and research centers. The data collection schedules so developed was approved by the Technical Monitoring Committee set up by the DAHDF. Workshops and trainings were also conducted at different locations for the field level supervisors and enumerators regarding the filling up of different schedules. Instructions were also prepared and distributed to field level supervisors and enumerators on each item of entry in the schedules. The census was carried out through 2,074 enumerators in 3,288 marine fishing villages and information from 8,64,550 households were collected. The entire operation was carried out under the supervision at different levels by the scientists and technical staff of CMFRI. The schedules used for enumeration were bilingual, both in English and local language.

The final report is in two parts, Part I with information at national level and the Part II is for each maritime state. The scope, time frame, parameters, definitions, type of schedules etc. are also described in Part I. This document is a consolidated report for the state of West Bengal, covering 188 marine fishing grama panchayats along the four coastal districts, which provides districtwise information on marine fishing villages, fish landing centres, population structure, educational status, socio-economic profile, occupation together with the ownership pattern of crafts and gears among fisherfolk. It is also intended to provide a summary of the crafts in the fishery and the infrastructure facilities available in the marine fishing villages in the state.

It is my pleasure to use this opportunity to thank the DAHDF and the Indian Council of Agricultural Research (ICAR) for having trust in CMFRI in its ability to take up the arduous task of carrying out the National Marine Fishery Census 2010. At this juncture I take the opportunity to thank the DAHDF for accepting the CMFRI national marine fisheries data (after reconciliation with states) as the official data of Government of India. I thank the state fisheries department for extending all the supports for the successful conduct of census. The sincere and hard work carried out by Fishery Resource Assessment Division staff of CMFRI need special mention and I thank each one of them. Special thanks are due for all the scientific, technical and administrative staff who were involved in one way or other in the conduct of census. Finally, appreciations also go to Dr. G. Maheswarudu, Scientist-in-Charge, Visakhapatnam Regional Centre of CMFRI for the support and help rendered in completing this program successfully. I am sure this report will be of enormous use to all associated with the development of marine fisheries.

SUMMARY

Marine Fisheries Census 2010 was carried out in four districts of West Bengal namely, Purba Medinipur, South 24 Parganas, Howrah and North 24 Parganas during April-May, 2010. The scope, time frame and terms used are described in Part I of the Marine Fisheries Census Report. The significant features are summarized below:

Fishing villages* and landing centres

- There were 188 marine fishing Grama Panchayats (GP) wherein fishermen reside. The maximum number was in South 24 Parganas district (68) and minimum was in Howrah district (23). The number of fishing GP in the remaining districts varied between 30 and 67.
- The total number of landing centres was 59, of which 38 belonged to Purba Medinipur district and the Howrah and North 24 Parganas districts had none.

** There were 833 habitations in the four districts of West Bengal which could be classified into small villages/settlements and habitations and they fell under 188 grama panchayats. The references to villages in this report actually indicate the grama panchayats.*

Population

- There were 76,981 fishermen households in the state with a total population of 3,80,138. The maximum number of households were in South 24 Parganas (40,684), followed by Purba Medinipur (23,189).
- Of the total fisherfolk population, South 24 Parganas accounted for 52%, followed by Purba Medinipur (33.12%).
- Among the 76,981 fishermen families, 53,532 (70%) were traditional fishermen families.
- On an average the number of families per grama panchayat was 409, with 2022 persons per grama panchayat.
- The average family size was 4.9 with a minimum of 4.3 in North 24 Parganas and a maximum of 5.43 in Purba Medinipur.
- Of the total population in West Bengal, adult males constituted 32%, adult females 29% and children 39%.

- Women formed 46% of the population with 865 females per 1000 males. This ratio was maximum in South 24 Parganas and Purba Medinipur (865) and minimum in Howrah district (824).

Poverty

- There were 48,870 households below poverty line.
- The largest proportion of households below poverty line was found in Howrah (79%) and the smallest in Purba Medinipur(54%).

Education

- In West Bengal 61% of fisherfolk (excluding children below 5 years) were educated with varying levels of education.
- About 41% of the fisherfolk had primary level of education, 20% with higher secondary, 1% with above higher secondary level of education and 38% of the population were unschooled.
- Nearly 63.3% of the marine fisherfolk in North 24 Parganas had some level of formal education and minimum in Howrah district (51.7%).
- Maximum percentage (48.3%) of unschooled among fisherfolk was in Howrah district.

Occupation

- There were 95,283 active fishermen of whom 55,511 were fulltime fishermen, 24,744 were part-time and the rest were engaged in fish seed collection.
- About 29% of fisherfolk were occupied with active fishing (14.4%) and fishing allied activities.
- There were 47,276 fisherfolk engaged in fishing allied activities, such as labourers (34.2%), marketing (16.5%), curing/processing (5%), peeling (3%), and making/repairing net (39%).
- Men had an edge over women in fishing allied activities accounting about 51.5%. Among the major fishing-related activities they dominated in labourers (52.4%), making and repairing of nets (21.5%) and Marketing (19.4%).
- Among the different districts, maximum number fisherfolk engaged in fishing allied activities belonged to South 24 Parganas (56%) whereas this was only 2% in Howrah districts.

- About 50% of those engaged in marketing of fish belonged to Purba Medinipur.
- Nearly 75.6% of those involved in making/ repairing net belonged to South 24 Parganas.
- About 88% of the fisherfolk were engaged in curing and processing belong to Purba Medinipur.

Religion

- Hindus constituted 92% of the total fisherfolk families, followed by Muslims (7%) and Others (1%).
- Barring South 24 Parganas other three districts had only token presence of believers from other religions among fishing families.
- Only 54% of the fisherfolk families belonged to SC/ST. In Howrah 84% of fisherfolk families were SC/ST whereas in Purba Medinipur it was only 49%.

Membership in co-operatives

- 7% of the adult fisherfolk were having membership in co-operative societies out of which 73% were in fisheries co-operative societies. Co-operative membership was maximum in South 24 Parganas district.

Craft in the fishery

- There were 17,348 crafts in the fishery of which 14,282 were mechanized and 3,066 were non-motorized.
- Trawlers (9.5%), bagnetters (36%) and gillnetters (39%) were the main crafts of the mechanized sector.
- No outboard craft was observed in the fishery in any of the districts.
- Of the total 5,644 gill netters in West Bengal 89% belonged to South 24 Parganas.

Craft/Gear owned by the fisherfolk

- Out of 11,958 crafts fully owned by fisherfolk, 41% were mechanized and 59% were non-motorized.
- Gillnetters accounted for 72% of the mechanized craft owned, followed by trawlers (13%).

- Important gears among major ones were bagnets, gillnets followed by trawlnets.

Infrastructure

- In West Bengal, 86% of the fishermen houses were kutcha houses and 14% were pucca houses.
- There were about 1198 primary schools, 238 secondary schools, 9 colleges.
- Among the fishing GPs 79% were electrified, 31% had bus stop/stand and 96% of the fishing GPs had cell phone coverage.
- There were about 3 boat yards in South 24 Parganas, 49 ice factories and a processing plant in Purba Medinipur.
